

Covid Housing

Authors: Joe Foray, Thomas Ferguson, Nathan Rickett, Alex Fischer

Problem Statement

Because of how easily Covid can spread, patients need to be isolated from people that do not have the virus to stop the spread. Our solution should make good use of the limited housing that is available and keep Covid patients away from healthy students/staff.

What is the problem?

Housing availability for covid patients on campus

Who is experiencing the problem?

Covid Patients

Where does the problem present itself?

On campus

Why does it matter?

So other students/staff do not catch the virus
