sanitize	clothing	food	student health	Transportation
wipe down counters	Store each patients clothes separate from other patients	have more affordable options	Provide tests every other day to patients in quarantine	Pay students to drive other students to Covid housing.
Provide more access to sanitation wipes for clean up after	Wash clothes one patient per washer/dryer	food is dropped off at door	Use video calls with professionals to check on patients' symptoms	Create a route that passes by all housing to pick up as many patients as possible
Clean bathrooms, increase heat in showers (they are cold).	Have patients leave their clothes in a bin outside their room for pickup	2 food runners per floor	Use video calls to make sure patients are ok mentally while in isolation	Create and post a schedule of drivers and their arrival and departure times.
Wash bed sheets regularly	Drop off clean clothes in a separate bin outside the room	More access to drinking water in general	Provide access to exercise for asymptomatic patients in order to prevent buildup of pneumonia in the lungs.	Provide cleaning equipment for student cars as well.

sanitize

each person has their own bathroom

each person has their own shower

Steam carpets after students leave

fog housing with disinfectant once per day

clothing

provide extra masks for infected students

provide masks and saftey suits for healthy staff

Provide the option of a room with included washer or dryer at request (more expensive option)

Make sure there are enough washers and dryers per student

food

have better food options

Make sure the food is nutritious and healthy

Test workers who are preparing the food so it is not contaminated

Gain food for lower prices from sponsors

student health

provide pamphlets to educate how to improve immune system

monitor students symptoms

dedicated medical staff in the covid housing

free medicine ready in covid housing

Transportation

Allow access to on the dot communication with your driver as to prevent a miscommunication over rendezvous point.

dedicated staff for planning the move of students between dorms

Create more phone lines for the transportation hotline to prevent mix ups of students from the operator.

If numbers grow to large, use shuttles to transport more students at once
